

Question_7:

Code:

```
1  /*
2  Question_7: Count rectangles whose width/height ratio is between 1.6 and 1.7.
3  */
4
5  #include <iostream>
6  using namespace std;
7
8  int main() {
9      int N, ans = 0;
10     cin >> N;
11
12     while (N--) {
13         double w, h;
14         cin >> w >> h;
15
16         double r = w / h;
17
18         if ((r >= 1.6 && r <= 1.7) ||
19             (1 / r >= 1.6 && 1 / r <= 1.7))
20             ans++;
21     }
22     cout << ans;
23     return 0;
24 }
```

Output:

Test Case_1:

```
4
185 100
180 100
170 100
160 100
2
PS C:\Users\Prabin Yadav\
```

Test Case_2:

```
6
185 100
180 100
170 100
160 100
165 90
164 95
2
PS C:\Users\Prabin Yadav\
```
